## Our Role

---

Provelio have implemented a coordinated approach to the delivery of a diverse range of small projects and maintenance activities via coordinated consultant and contractor partnering agreements. This has included structuring contracts to cater for large and small value orders ranging from £250m up to £1m each. The objective being to create a flexible system that can adapt to meet the needs of each individual client throughout the duration of the appointment. Provelio have typically retained an ongoing involvement in the implementation and operational phases of each commission.

## Client Benefits

---

Provelio's long term relationship with our clients enables us to understand and address their key requirements. This includes providing a flexible, cost effective process allows the client to incorporate their own procedures with those developed to manage and control their chosen partners. The process allows the client to monitor contract efficiency and compliance via regular audits and progress review meetings. Provelio utilise lessons learned to inform continuous improvement initiatives throughout the duration of the appointment.
